Hugo Ouwerkerk

FULL-STACK DEVELOPER

hah.ouwerkerk@outlook.com / github.com/HugoOuwerkerk / linkedin.com/in/hugo-ouwerkerk-461125295

Uelsen, Germany. **Open to full-stack and backend roles.** Remote or on-site, open to relocating.

EXPERIENCE

Landgasthof Koninghoek / Kitchen Staff & Web Developer — May 2026 - Present

Run the kitchen when we are short-staffed. Built the restaurant's website and host it.

Astro, React, Tailwind

Emmedy Learning Solutions / Full Stack Developer (internship) — Mar 2026 - May 2026

Built features for a learning management system (LMS) for scheduling and tracking employee training.

PHP, Symfony, Twig, JavaScript

Coddin / Backend Developer (internship) — Nov 2025 - Jan 2026

Built internal client and employee portals. Added backend features to client projects.

PHP, Laravel, Filament

Beim Schweinswirt / Kitchen Staff & Web Developer (closed) — 2022 - Apr 2026

Cooked in the kitchen. Built and hosted the restaurant's website.

React, Vite, Tailwind

PROJECTS

KraftLab / kraftlab.app

Training app for hybrid athletes: gym and cardio logging, weekly planning, Strava sync, bring-your-own AI coach. English, German, Dutch.

React, Vite, Express, SQLite, Capacitor, Docker

Landgasthof Koninghoek / koninghoek.de

Website for the restaurant I work at: menu, events, job openings. German, English, Dutch. SEO: structured data, hreflang, sitemap.

Astro, React, Tailwind, Docker

Puntcode / puntcode.de

My one-person software business, moving from client sites to own products like KraftLab.

Astro, React, TypeScript, Tailwind

Earlier: ProjectBoard, Platzpionier

ProjectBoard: self-hosted project manager (SvelteKit, FastAPI, Docker), retired. Platzpionier: booking widget for restaurants (Next.js, Supabase), shelved.

EDUCATION

Saxion University / Associate Degree, Software Development (expected) — 2023 - Early 2027

Software engineering: system design, data structures, DevOps, team projects.

Canisius Almelo / HAVO (Natuur & Techniek / Gezondheid) — 2018 - 2023

SKILLS

Backend	PHP, Laravel, Symfony, Python
Frontend	TypeScript, React, Astro, Tailwind
Tools	Docker, SQL, Git
