Hugo Ouwerkerk

FULL-STACK DEVELOPER

hah.ouwerkerk@outlook.com / github.com/HugoOuwerkerk / linkedin.com/in/hugo-ouwerkerk-461125295

Uelsen, Germany. **Open to full-stack roles.** Remote or on-site, open to relocating.

I build web apps. I run Puntcode, my own software business, and I work in a restaurant kitchen.

EXPERIENCE

Landgasthof Koninghoek / Kitchen Staff & Web Developer — May 2026 - Present

Run the kitchen when we are short-staffed, with a trained cook watching over. Built the restaurant's website and handle its hosting and upkeep.

Astro, React, Tailwind

Emmedy Learning Solutions / Full Stack Developer (internship) — Mar 2026 - May 2026

Built features for a learning management system (LMS) that helps companies schedule, deliver and track employee training.

PHP, Symfony, Twig, JavaScript

Coddin / Backend Developer (internship) — Nov 2025 - Jan 2026

Built internal client and employee portals with Laravel and Filament. Added backend features to client projects.

PHP, Laravel, Filament

Beim Schweinswirt / Kitchen Staff & Web Developer (closed) — 2022 - Apr 2026

Cooked in the kitchen. Built the restaurant's website and handled its hosting and upkeep.

React, Vite, Tailwind

PROJECTS

KraftLab / kraftlab.app

A training app for hybrid athletes. Log gym and cardio, plan your week, sync runs from Strava and connect your own AI coach. In English, German and Dutch.

React, Vite, Express, SQLite, Capacitor, Docker

Landgasthof Koninghoek / koninghoek.de

Website for the restaurant I work at. Digital menu, table reservations, events and job openings. In German, English and Dutch.

Astro, React, Tailwind, Docker

Puntcode / puntcode.de

My one-person software business. Moving from client websites to my own products, like KraftLab.

Astro, React, TypeScript, Tailwind

Earlier: ProjectBoard, Platzpionier

ProjectBoard is a self-hosted project manager (SvelteKit, FastAPI, Docker), retired after daily personal use. Platzpionier is an embeddable booking widget for restaurants (Next.js, Supabase), shelved over regulatory liability.

EDUCATION

Saxion University / Associate Degree, Software Development — 2023 - Present

Two-year degree in software engineering. System design, data structures, DevOps and team projects.

Canisius Almelo / HAVO (Natuur & Techniek / Gezondheid) — 2018 - 2023

SKILLS

Backend	PHP, Laravel, Symfony, Python
Frontend	TypeScript, React, Astro, Tailwind
Tools	Docker, SQL, Git
